Vehicles 1 and 2 were traveling southbound on Route 18. At the time of the accident, there was heavy traffic due to the volume of vehicles on the road. Driver #2 stated that as he was slowly accelerating forward, he accidentally struck Vehicle #1 in the rear. Driver #2 stated that due to the height of his vehicle and the height of Vehicle #1, he did not realize how close he was to Vehicle #1.

Vehicle #1 sustained minor bumper damage, and Vehicle #2 had no visible signs of damage. Both parties refused medical attention, and had no complaints of injury at the time of the incident.

P.O. D. Mazan 7294
Vehicle 2 struck vehicle 1 in the rear. No injuries were reported from vehicle 2. However, the driver of vehicle 1 complained of neck pain and indicated she would seek treatment on her own, refusing EMS.

The driver of vehicle 2 also indicated after the collision with vehicle 1, an unknown vehicle struck his vehicle in the rear. No third vehicle information was provided.
New Jersey Police Crash Investigation Report

Motor Vehicle Crash Description

Driver of V1 stated that he was traveling southbound on Hamilton Street. As he was approaching Louis Street the light turned yellow and he was stopped behind a vehicle at the red light. At this time, V2 passed him in the parking lane. It appeared V2 was going to be turning right onto Louis Street. The light turned green and he began to proceed through the intersection, while in the intersection he was struck by V2.

Driver of V2 stated that she was traveling southbound on Hamilton Street. As she approached Louis Street she observed the red light and stopped behind V1. She then passed V1 on the right so she could make a right turn onto Louis Street. Driver of V2 stated that it appeared that the driver of V2 was unhappy that she passed him. When the light turned green she attempted to make a right turn onto Louis Street, but was unable to do so because V1 swerved into her lane to hit the front end of her vehicle with the middle of his vehicle.

It should be noted that the lane used by V2 to pass V1 is not a lane of travel, but designated for parking along the curbing.

141 Officer's Signature: Po Robert Runof

Names & Addresses of Occupants: Cruz, Edgar-207 Townsend Street Apt 2, New Brunswick, NJ
On 06/25/2016 at approximately 2223 hours, the undersigned and P.O. Meccia responded to the area of Hale St / Lee Ave, on a report of a white vehicle that hit a parked motor vehicle and attempted to flee the scene. Upon our arrival with unit #911 (Riepenhoff/Belafronte) we observed vehicle #1 stopped on an angle in the middle of Lee Ave with heavy damage to the right front end. The vehicle appeared to be occupied by operator #1. It should be noted that operator #1 appeared to be disoriented and possibly impaired. The undersigned then assisted with removing the operator from the vehicle in fear that he was going to attempt to operate the same.

P.O. Daughton arrived on scene a short time later and began to conduct field sobriety testing of the operator due to circumstances of the accident. See his report for further.

The undersigned was able to locate vehicle #2 parked at the corner of Lee Ave / Hale St, it appeared to have visible damage to the drivers rear fender and wheel area. It should also be noted that parts of vehicle #1 broken headlight were located near the rear of vehicle #2. The owner of vehicle #2 was located a short time later and advised of the incident. She informed Officer's that she would have the vehicle towed to her mechanic on her own.

Vehicle #3 was located directly in front of vehicle #2 with minimum damage and paint transfer from vehicle #1 on the drivers rear bumper area. The owner was also located and advised of the incident.

Based on my observations it appeared that vehicle #1 was traveling on Lee Ave, when it drifted to the right and struck the rear of vehicle #2 and vehicle #3. Causing damage to the same. Vehicle #1 then traveled a short distance before it became inoperable to the heavy damage.

Nothing further to report in regards to this incident. P.O. Runof #7309
The driver of vehicle 1 stated he was driving up Suydam Street when a pedestrian suddenly ran into the roadway from the opposite side of the road. Driver 1 stated he attempted to stop but was unable to and struck the pedestrian.

When I arrived on scene the pedestrian was in the roadway breathing but unresponsive. The pedestrian had a minor laceration to his head. The pedestrian was transported to Robert Wood Johnson University Hospital with non life threatening injuries.

It should be noted while on scene driver 1 began rambling when I spoke with him. He was unable to provide the documents I requested. He kept speaking out of context. I was uncertain if this was due to traumatic stress from the incident or if it was alcohol/drug related. I had Officer Daughton respond to the scene to conduct Standard Field Sobriety Testing and Horizontal Gaze Nystagms. Officer Daughton stated driver 1 told him that he had 3 drinks earlier in the evening. Officer Daughton determined that driver one was not under the influence of alcohol and or drugs at the time of the incident.

It should be noted that there were no skid marks from driver 1's vehicle at the scene of the accident. A witness to the accident stayed on scene until officers arrived. The witness stated that the pedestrian ran into the roadway and was struck by vehicle 1. The witness also stated that vehicle 1 made no attempt to stop.
Registered owner (Jose Pineda-Rosado) stated that he left work at 181 Throop Ave. at approximately 02:30. Upon walking to his vehicle parked in front of 166 Delavan Street he noticed that there was fresh damage to the front drivers side bumper of the vehicle. Mr. Pineda stated that he did not witness the impact and was unable to provide a suspect vehicle description.

**Crash Description**

- Driver of V1 stated she was traveling northbound on Route 18 North in the left lane just before the split between express and local lanes. While traveling she observed a large object fall out of the bed of a white pickup truck. At this time she slowed down to stop to avoid the object and the damage it may have caused. While stopped, she was struck in the rear by V2.

- Driver of V2 stated he was traveling northbound on Route 18 North in the left lane just before the split between the express and local lanes. While traveling he observed a large object in the lane of travel. He then observed V1 begin to slow down followed by an abrupt stop. Driver of V2 stated he attempted to slow down to avoid a collision with V1. While he was slowing his vehicle he did not think he would be able to stop and looked to change lanes. V2 was unable to change lanes due to the traffic next to him and he unavoidably struck V1 in the rear.

- It should be noted that both drivers saw the object in the roadway, both were unable to tell what the object was nor could they see the license plate number belonging to the truck. Driver of V1 stated the driver of the pickup truck stopped his vehicle and removed the object prior to police arrival.
